

The Distillation Process

Gentle Mother is a suite of products that consist of five safe and effective remedies for babies. These include **Calm**: prepared from chamomile and valerian, **Digest Well**: green papaya and ginger root, **Diaper Rash**: noni leaf, passion fruit, aloe vera, chamomile, turmeric root and clove, **Nose Spray**: turmeric root and spearmint and **Teething Spray**: made from clove and turmeric root. All of our ingredients are distilled into a gentle, water-based formula applicable for babies and young infants.

Bioponic Phytoceuticals hydro-distillation process starts with the finest ingredients and adds pure water, naturally filtered through ancient volcanic rock. Gently heating the mixture releases a vaporous steam that carries the plants unique molecular structure to condense and collect as the hydrosol essence. Bioponics hydrodistillations use only the finest glass apparatus, which give our products their purity and distinct quality.

The Gentle Mother products have been designed to address some of the basic health needs of babies feeling discomfort due to common ailments, while promoting baby's health and well being.

Gentle Mother is:

- a suite of pure plant essences
- made from fresh herbs, roots and fruit
- soothing, alcohol - free, pleasantly, fragrant and safe for your baby
- made with pure filtered water
- made in Maui, Hawaii

How do you know which natural remedies may be beneficial for your children? Do you care about additives, preservatives, artificial colors or other unnecessary ingredients in your child's health formulas?

The Gentle Mother line of infant herbal remedies contains no additives preservatives or artificial colors, only the goodness that pure, natural plants can provide.

As a concerned parent when you read the labels of the products you buy for your child, you will notice that many children's medicines contain additives, artificial color and preservatives. Some may cause side effects or can be detrimental to health over extended periods of use. Some of the natural, herbal medicines should not be given to children under the age of 12, unless supervised by a doctor or health care practitioner.

The Gentle Mother line of infant herbal remedies are gentle preparations of herbal medicinal plants derived from the hydro-distillation process using the Bioresonant Phytotherapeutic® methodology.

When the need arises, why not care for your child's health using a safe, effective formula made from the known herbal pharmacopoeias of the world's rich herbal medicinal traditions. The Gentle Mother line of infant herbal remedies has prepared five formulas to address the common health care needs of mothers with infant children in a safe, effective and easy to use way.

All babies will cry, it's an essential means of communication and a response to their new experience of life. At about two weeks of age, it is common for babies to develop a fussy period in the evening that can last for as long as two hours. If your baby becomes fussy offer comfort and pay attention to what your baby is trying to tell you. Through trial and error you will soon discover which soothing methods work best.

The Gentle Mother "Calm Spray" herbal remedy provides soothing and relaxing herbs with a palatable formula of distilled chamomile and valerian. Gentle Mother "Calm Spray" can be sprayed directly into baby's mouth for a gentle calming experience.

Important Qualities

- Gentle, safe and effective
- Can be used for children of all ages
- All natural remedies made from organic and wildcrafted herbs
- Helps to relieve the common ailments of children

Use Gentle Mother:

- To achieve and maintain health
- To treat symptoms of discomfort
- To relieve pain and suffering
- At the first sign of a cold
- To create a sense of calm and well being
- To help heal your child

Gentle Mother Products

- **Calm** (*chamomile and valerian*)
An effective, natural and safe formula used to soothe and relax your baby. The combination of chamomile and valerian, which are known to be gentle sedatives, will help alleviate conditions of unrest and put your baby at ease.
- **Digest Well** (*green papaya and ginger root*)
An effective oral spray that is safe for treating gas and other infant related digestive issues. This natural spray formula helps to ease digestive problems that may be caused from an inability of the baby to pass gas, which may cause discomfort.
- **Diaper Rash** (*noni leaf, passion fruit, aloe vera, chamomile, turmeric root and clove*)
A safe and effective remedy designed to reduce diaper rash, topical inflammation, and other skin irritations. This natural skin spray is formulated to help heal minor rashes and irritated skin conditions. It relieves the uncomfortable symptoms of diaper rash while promoting the healing process for the baby's delicate skin.
- **Nose Spray** (*turmeric root and spearmint*)
A natural nasal spray that is designed for treating baby's congestion and mucus build-up. This remedy is formulated to help loosen thick nasal mucus and decongest the nasal pathways through gentle hydration using a pump spray liquid delivery system. It is soothing, alcohol-free, pleasantly fragrant and can be applied directly into the nose of your baby.
- **Teething** (*clove and turmeric root*)
A fast relieving, effective, natural and safe formula for infants. This natural teething spray is designed to help reduce the pain and discomfort of sore gums caused by emerging teeth. The combination of clove and turmeric root will help numb the pain and prevent the possibility of infection.
