

## The Distillation Process

Ginzeng! is made from the finest herbs and spices: ginseng root, cinnamon bark & cloves. The process combines tincture extraction with hydrosol distillation creating a unique tonic.

Bioponic's hydrodistillation process starts with the finest ingredients and adds pure water, naturally filtered through ancient volcanic rock. Gently heating the mixture releases a vaporous steam that carries the plants unique molecular structure to condense and collect as the hydrosol essence. Bioponic's hydrodistillations use only the finest glass apparatus, which give our products their purity and distinct quality.

Ginzeng! is a restorative remedy that stimulates, rejuvenates & promotes health and well being.

The Ginzeng energy tonic is:

- a formulation of pure plant essences
- made from fresh ginseng root, cinnamon bark & cloves
- a combination of tincture extraction & hydrodistillation
- made with pure filtered water
- made in Maui, Hawaii

# GINZENG!<sup>TM</sup>

The Long Lasting Energy Tonic

## The Ginzeng Story:

Ginzeng! is the first herbal healing tonic to blend hydrodistilled ginseng with ginseng alcohol extract, and combine them with hydrodistilled cinnamon and clove. This flavorful remedy is the perfect healing tonic to increase strength and endurance, support glandular function and restore health and harmony to the body.

We start with the finest natural American ginseng (*Panax quinquefolius* L.) harvested in the prime ginseng growing region of Catskill, New York. Carefully distilling both the hydrophilic and hydrophobic fractions, gives our Ginzeng! its unique signature of biologically active constituents, a complex mixture of triterpene saponins known as ginsenosides. Then, we add hydrodistillations of cinnamon and cloves blended according to Bioponic's special formulation to produce the perfect tonic for health and well being.

The pharmacological actions of ginsenosides stimulate the central nervous system. Their adaptogenic properties balance bodily functions. Ginseng's salicylate & vanillic acids exhibit anti oxidant & anti fatigue effects; ginseng possesses hormone like & cholesterol lowering capabilities; ginseng promotes vasodilation and acts as an anxiolytic and anti depressant; ginseng extracts & ginsenosides shows effectiveness in stimulating learning, memory, physical capabilities, providing resistance to infection, & enhancing energy metabolism.

# GINZENG!™

- Increases stamina and builds up resistance
- Enhances fertility and sexuality
- Supports the immune system
- Improves overall energy and vitality, especially during times of fatigue or stress
- A restorative that will bring the body into harmony
- Balances metabolic processes
- Stimulates learning, memory, & physical capabilities
- Strengthens the central nervous system
- Stimulates the endocrine system maintaining proper hormone levels
- Stomach tonic useful for digestion
- Effective in maintaining and restoring cellular function

## Active Ingredients:

**Ginseng Root** (*panax quinquefolius*)  
Ginseng is a tonic herb, or an adaptogen that helps to improve overall health and restore the body to balance. Ginseng is used to boost energy, sharpen the mind, reduce stress, treat impotence, enhance the immune system, control blood pressure, regulate blood sugar levels, & strengthen the cardiovascular system.

**Cinnamon** (*cinnamomum zeylanicum*)  
Cinnamon raises vitality, warms & stimulates all the vital functions of the body, counteracts congestion, is antirheumatic, improves digestion, relieves nausea & vomiting, abdominal spasms, counteracts gas, & aids peripheral circulation of the blood.

**Clove** (*syzygium aromaticum*)  
is a powerful local antiseptic. The active ingredient in clove is eugenol, an effective painkiller that kills bacteria and viruses.
