

The Process of Hydrodistillation

Noni Care -
the Natural Scented Skin Spray
is created by Bioponic Phytoceuticals
using advanced hydrodistillation
techniques for the preparation of
these carefully selected ingredients.

We start with the finest natural
herbs, fruits and flowers and add pure
water naturally filtered through ancient
volcanic rock. Gently heating the
mixture releases a vaporous steam that
carries the plants' unique molecular
structure to condense as the hydrosol
essence. These essences are blended
with noni leaf to create Noni Care.
There are no synthetic preservatives
used, only natural herbs and pure water.

Our production facilities utilize
only the finest distillation equipment,
which gives our hydrosols their purity
and distinct quality.

Experience the soothing scented skin
spray of Noni Care.

Noni Care is:

- pure plant essence
- 100% natural
- hydrodistilled
- made from natural herbs, and fruits
- distilled with pure filtered water
- made in Maui, Hawaii

Noni Care™

Noni Care

The Natural Topical Skin Spray is the first herbal healing spray to use hydrodistilled noni leaf in formulation with jasmine, lavender, lemon grass, tuberose, lime, sandalwood, lilikoi fruit, chamomile, rose, tangerine, sage, and spearmint.

These natural topical skin sprays combine the medicinal benefit of noni leaf with our natural fragrances. They are formulated by combining one of the most effective herbal ingredients to fight against topical infectious and fungal agents (noni leaf) with the delightful scents of natural fruit, floral,

and herbal essences. The Noni Care products help relieve associated symptoms from rashes, sunburns, external infections from bacteria, insect bites, psoriasis, eczema, minor skin cuts, bruises, fungus, athletes foot, acne and other skin disorders. Noni Care is effective, natural, safe for use in skin care, and helps soothe the skin promoting the healing process.
