

The Distillation Process

Throat Note is made from the finest herbs and spices: Uhaloa (Waltheria indica), Cinnamon, Cloves, Noni Leaf, Lilkoi, Aloe Vera, Chamomile and Turmeric Root. The process combines tincture extraction with hydrosol distillation creating a unique throat spray.

Bioponic Phytoceuticals hydrodistillation process starts with the finest ingredients and adds pure water, naturally filtered through ancient volcanic rock. Gently heating the mixture releases a vaporous steam that carries the plants unique molecular structure to condense and collect as the hydrosol essence. Bioponics hydrodistillations use only the finest glass apparatus, which give our products their purity and distinct quality.

Throat Note is a vocal remedy that soothes the throat from discomfort and promotes health and well being.

Throat Note is:

- a formulation of pure plant essences
- made from fresh roots, herbs and fruit
- a combination of tincture extraction and hydrodistillation
- made with pure filtered water
- made in Maui, Hawaii

Throat Note™

the vocal remedy, is a soothing all natural herbal throat spray that acts as a healing aid to anyone who uses their voice professionally, such as: singers, public speakers, entertainers,

actors, television reporters, talk show hosts, phone reps and disc jockeys. Throat Note is designed to support the immune system when under physical stress. This vocal remedy contains a powerful combination of herbs specially formulated to provide relief and immune support for your throat and vocal cord health. Throat Note can be used preventatively or once discomfort has set in. It is used for those seeking quality, high potency relief and lubrication for sore throats in a convenient herbal spray. It is also used for those who lecture or sing and wish to relieve throats that have been stressed. It has a great tasting, cinnamon and clove flavor!

Indoor inhaled air is usually drier than optimum because heating and air conditioning removes moisture from the air. As a consequence, the throat's mucus coating cannot keep the underlying sensitive membranes moist, which cause these surfaces to become dehydrated even if one is not doing an unusual amount of talking or singing. A dry irritated throat is susceptible to inflammation and infection. This can also be caused by smoke, dust, or the after-effect of a cold or cough. A hoarse voice is uncomfortable and inhibits our ability to communicate.

This herbal throat spray specifically addresses tickles, soreness, dryness, and irritation of the throat and vocal chords.

Important Qualities

- Soothes and lubricates the throat
- A strong respiratory anti-viral and anti-bacterial that stimulates immunity
- Helps to relieve dryness and irritation of the throat and vocal chords
- Unique combination of ingredients designed to address sore throats
- Decreases inflammation and swelling caused by infection or allergies
- Clears your throat and restores your voice

Use Throat Note:

- To achieve and maintain health
- When you feel the "tickle" in the back of your throat
- When you are in a crowd and exposed to airborne germs
- When someone near you displays the symptoms of a cold
- To freshen your breath !

Active Ingredients

- **Uhaloa** (*Waltheria indica*)
A traditional plant of the Hawaiian Medica, Uhaloa is used for sore throat, common cold, cough, bronchial phlegm or mucus.
- **Cinnamon** (*Cinnamomum zeylanicum*)
Cinnamon raises vitality, warms and stimulates all the vital functions of the body, counteracts congestion, is antirheumatic, improves digestion, relieves nausea abdominal spasms and aids peripheral circulation of the blood.
- **Clove** (*Syzygium aromaticum*)
A powerful local antiseptic. The active ingredient in clove is eugenol, an effective painkiller that kills bacteria and viruses.
- **Noni Leaf** (*Morinda citrifolia*)
Noni Leaf reduces inflammation and has been used topically for sprains and arthritis. Noni is known to invigorate the blood, speed the healing of wounds, strengthen bones and expel parasites and fungus.
- **Lilikoi** (*Passiflora edulis*)
Lilikoi fruit is used for inflammation and burns... having anti-inflammatory and pain relieving effects. Lilikoi is commonly used to induce relaxation and relieve insomnia.
- **Aloe Vera** (*Aloeaceae*)
Aloe is considered one of nature's best natural moisturizers. It is used for sunburn, wrinkles, skin irritations, minor cuts, sores, herpes, and scratches. It can also help heal wounds by preventing infection.
- **Chamomile** (*Anthemis Nobilis*)
Chamomile has shown the ability to reduce inflammation and speed wound healing. It has antimicrobial properties and can fight against a variety of infections.
- **Turmeric Root** (*Circuma longa*)
A natural anti-bacterial and anti-fungal agent. It can be used topically to reduce or prevent infection, and as a natural preservative.
